

For best results, print on card stock or heavy paper.

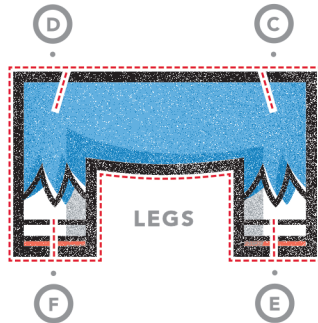

SHADES

CUT ----- ✂
FOLD - - - - -

HOW TO BUILD YOUR BIRD

1. Cut out all five pieces along the red dashed lines.
2. Carefully snip slots A, B, C, D, E and F along the red dashed lines (don't cut too deep!).
3. Fold body down along the blue dashed lines on back and chest.

4. Lock together the two slots on chest, marked "B."
5. Slide legs onto body, lining up pairs of slots marked "C" and "D."
6. Add shoes, lining up pairs of slots marked "E" and "F."
7. Add shades at slot marked "A," and fold the tail up at a jaunty angle.

SMILE FOR THE CAMERA!

Jayhawks love to travel, so take your bird along when you head out. Send us your best bird-location photos at givetoku@kuendowment.org or post them on our Facebook wall at facebook.com/kuendowment.
