

Cut the printed Jayhawk to size so the yellow corners point up as shown.

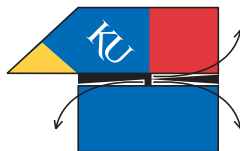

Turn over so the blank side faces you. Fold left and right sides along dotted lines to center.

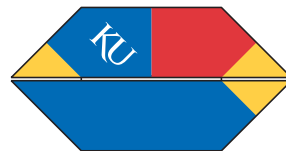

Fold top and bottom along dotted lines to center

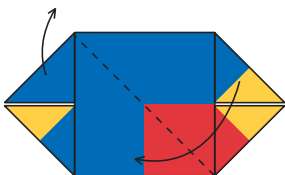

Pull out the flap under KU from the center and fold to make a point.

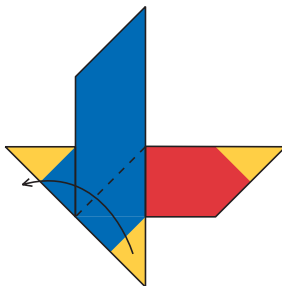

Now do this with the other three corners.

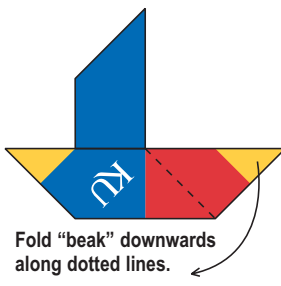

Once here, flip over the entire piece.

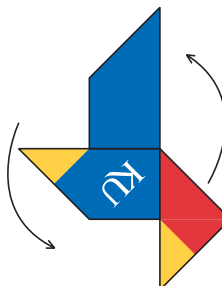

Fold top right corner down along dotted lines and flip up the upper left corner.

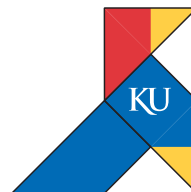

Fold bottom point upwards along dotted lines.

Fold "beak" downwards along dotted lines.

Then rotate the entire piece to get the completed model to stand up in this position.

# ORIGAMI JAYHAWK
